

**Come Celebrate**  
**NATIONAL SCIENCE WEEK AT**  
**URRBRAE**

**FREE  
EVENT**

Tuesday 13<sup>th</sup> August & Wednesday 14<sup>th</sup> August 2019 (term 3 week 4)

In celebration of National Science Week, Urrbrae Agricultural High School is hosting a Kids Teaching Kids Event, giving students from across Adelaide the opportunity to participate in a range of interactive workshops located at:

**Urrbrae Wetland** → hosting a series of workshops focused on the natural environment and sustainability including fish, turtles, reptiles, invertebrates, plants, water sustainability, human impacts and dreamtime stories.

**Urrbrae Farm** → Urrbrae Trails offers a unique opportunity for students to visit and explore a working farm in Metropolitan Adelaide. The tour is led by Year 10 students and offers visitors the opportunity to engage in authentic, hands on activities concerning farming and food production.

**Urrbrae Science Labs** → Students can experience high school science at its best and participate in a range of practical investigations in our high school laboratories.

**Science Show Extravaganza** → Our science coordinator is putting on a dazzling show demonstrating a variety of scientific principles using the motto “bigger is always better” when it comes to engaging students. There will be flashes and bangs, and death defying stunts; all in the name of science and entertainment. Will you be in the splash zone?

Each day there will be concurrent sessions running across all sites.

Daily Program		
Session 1 9:30am – 11:30am	<b>Urrbrae Wetland</b> – max 90 students	Meet at the Wetland Learning Centre
	<b>Urrbrae Farm</b> – max 120 students	Meet at Urrbrae Trails Shed
	<b>Urrbrae Science Labs</b> – max 60 students	Meet at Urrbrae High School Office
Lunch	*SCIENCE SHOW*	
Session 2 12:30pm – 2:30pm	<b>Urrbrae Wetland</b> – max 90 students	Meet at the Wetland Learning Centre
	<b>Urrbrae Farm</b> – max 120 students	Meet at Urrbrae Trails Shed
